VIENNA, February 11.

THE States of Hungary have sent Letters by Expresses to this Court, in which they make urgent Instances, that the Diet of that Kingdom be summon'd to meet at Presbourg, may be open'd on the Day prefix'd without any Prorogation; and that his Imperial Majesty will be pleas'd to appear in it in Person; Assuring him, that notwithstanding the Hostilities and Tyrannical Proceedings of the Leaders of the Rebels, they will appear in great Number; the rather because they perceive plainly, that the Ring-Leaders of the Rebellion have no other Design, then to enrich themselves by Plunder and Rapine, and finally to precipitate others into irrecoverable Ruine. The said States profess themselves ready to contribute to the Reestablishment of the Peace and Tranquility of the Kingdom, and to preserve their Fidelity to his Imperial Majesty their Sovereign. From hence we entertain the greater Hopes that the said Diet will have a happy Issue.

RATISBON, Feb. 15. The beginning of this Month, an Imperial Commissionall Decree dated the 21st of July 1706. for the Establishment of a ninth Electorate in the House of Hanover, was in the accus'd Forms read, examin'd, and in its full Tenour debated by the College of Princes, who unanimously agreed and concluded, in especial Consideration of the Reasons alledg'd in that Decree and other important Motives, to consent on the Part of the Princes, without any Reserve, to the new Electoral Dignity conferr'd by his Imperial Majesty decess'd, Leopold of most glorious Memory, on the most ancient, powerful, and of the sacred Roman Empire so well-deserving House of Brunswick-Lunenbourg-Hanover, that is to say on the first Line of that House in Order of Primogeniture. But at the same time taking into consideration, that the two Catholick Lines of the Palatine Family, namely the Rudolphine and Wilhelmine, may by the divine Will sooner or later be extinguish'd, they voted it expedient and necessary for securing the domestick Tranquility of the sacred Roman Empire, and for the present and future Maintenance of the same, that if contrary to Hope the said two Rudolphine and Wilhelmine Catholick Lines shall come to fail, a new Catholick Electorate shall be introduc'd, and the Nomination of the Person to it left intirely to the Emperour of the Romans at that Time reigning, without any Exception; as also that the Elector so nominated shall be *ipso facto* legally enabled, even before he procures Investiture, and without any further Circumstance or Formality, to exercise all the Electoral Functions with the other Lords Co-Electors: With this Clause, that if the foresaid Failure of the two Catholick Palatine Lines should happen during an Imperial Interregnum, then the Catholick Elector presiding in the Diet shall be authoriz'd, in all Elections, Colleges, Deputations, and other Proceedings of the Empire, to give a supernumerary Vote, till such Time as a new Catholick Elector shall be nominated by the succeeding Emperour or King of the Romans. At the same Time also, the Emperour did by his Commissioner most graciously declare, that from henceforward he will resume and exercise as King of Bohemia, (for his own greater Honour and for the good of the Empire,) Session and Vote, as

well in the Electoral College as in all other Assemblies ordinary and extraordinary, whether in collegial Diets or others, by virtue of the Golden Bull and according to ancient Custom; as also that he will admit such Impositions as shall be thought reasonable by the Diet on Account of the Provinces of Bohemia, and actually furnish his Contingent (in due Proportion with the rest of the Empire) for the same, without pretending in any of these Assemblies or Conventions in which the King of Bohemia shall have Session as an Elector of the holy Roman Empire, any Precedency or Ceremonial, except such as is authoriz'd by the foresaid Golden Bull and ancient Custom. The College of Princes receiv'd with most humble Thanks this Declaration, and on their Part engag'd themselves by Promise to his Imperial Majesty, to take the foresaid Crown and Kingdom of Bohemia, together with all other Countries annex'd to the same, into the Protection of the holy Roman Empire, and vigorously to defend the same, no less than any other Province of the Empire, against all foreign Violence whatever, in Time of Need, conformably to the executive-Ordinances and other wholesome Constitutions of the Empire.

In a former Courant, an Account was given of a Complaint made to the Regency at Stockholm, by M. Rumpf the Resident of the States General, of an Affront and Injury done him in the Person of his Brother, whom he employs as his Secretary, by a certain Draper of Stockholm: Such Matters are indeed of no great Moment in themselves, yet we think it not amiss by such little Instances to shew what great Regard the Laws of Nations have for Persons sent with a publick Character from one Potentate to another; And therefore shall insert the following *Extract from the Register of the Resolutions of the High and Mighty Lords the States General of the united Netherlands.*

Die Martis, Jan. 17. 1708.

A Letter from the Resident Rumpf written from Stockholm the 4th Instant, and directed to the Register Fagel, being read, was found to import, that the Royal Senate had signified to him by Secretary Ehrenberg, that the said Senate had not receiv'd till the Day before Information from the Magistrates of the City, of the Insult and Violence suffer'd by him the said Resident in the Person of his Brother, the said Information having been delay'd to be given them because of the Holydays and other Hindrances; that the Lords the Senators should be oblig'd to put off the Consideration of that Affair for some time, but were dispos'd to cause all fit Satisfaction to be made him; that in the mean time they left it to the Consideration of the Resident, whether he would accept as Satisfactory the Submission offer'd to be made to him by Grubb the Draper; but that he had rejected that Proposition, because he conceiv'd the Honour of the Character he bore, which was publicly injar'd, could not be satisfied but by a publick Reparation. Upon which their High Mightinesses having deliberated, came to a Resolution, that Answer should be return'd to the said Resident Rumpf, that they approve all his Proceedings in this Affair; and that M. Palmquist Envoy extraordinary of the King of Sweden shall be desir'd to use his good Offices, that the Injury done to the said Resident Rumpf in the Person of his Brother, may be fully repaired by proper and suitable Satisfaction.

And

And to this End an Extract of this Resolution of their High Mightinesses, shall be deliver'd to the said M. Palmquist by the Agent Rosenboom.

S. L. Gockinga.

Agrees with the foremention'd Register.
F. Fagel.
